

manifesting a new world in harmony with natural law

TESLA ACADEMY

new earth project

HUMANIDAD
NIKOLA TESLA INSTITUTE
TESLA SCIENCE FOUNDATION

The **New Earth Project** offers a comprehensive blueprint which addresses the world's failing models of education, health and socio-economics. It is a 100% deliverable model which invites conscious, ethical, self-determining men, women and children to co-operate and interact to establish environments that foster human & planetary well-being and sustainable prosperity; providing a new foundation for conscious living, within a framework that re-examines the principles that govern our existence and perceptions.

The **New Earth Blueprint** is a consciousness oriented template covering each of the fundamental elements essential to empower a conscious humanity to reclaim its sovereign birthright. It provides protected environments for the development of conscious communities, removes all conditions which create scarcity, remediates depleted eco-systems, introduces advanced food production methods, unifies humanity in an evolutionary planetary network, redresses the way we educate ourselves and our children, provides cures for every condition known to man, provides architecture which enhances the human form, gifts evolutionary technology to the people of the world, and offers a viable path for people to embrace an authentic expression of life and being.

The practical application of the blueprint involves the coordination of multiple worldwide venues comprising:

New Earth Communities: Pioneering social experiments serving as nationwide exemplars for the ideal sustainable, conscious community.

New Earth Institutes: International centres of excellence and innovation in consciousness, advanced sciences, healing and wellness.

New Earth Retreats: Places where students, visitors and visionary patrons alike can experience the world's most advanced educational, technological, rejuvenating and healing facilities in flourishing natural biospheres.

New Earth Festivals: A unified global focus event presenting a sustainable vision for a New Earth through the joyful celebration and exposition of art, music, theatre, dance, food, new sciences, healing and wisdom.

This supranational network of people and resources is linked by the HumaniSphere - an evolutionary immersive web-portal providing all key services to support people in transitioning to, and flourishing in, the New Earth.

Locations

new earth locations

the project promotes and supports environments which are physically, emotionally and spiritually invigorating; where people live in natural homes in natural locations built from natural materials; environments where our health and welfare is no longer controlled by vested interests; where education is inspired and inspiring; where organic gmo-free food is plentiful... and free; and where no one needs to pay money to anyone else simply to survive. environments which utilise the rule of law to remind local and central government that they are mandated by the people, to serve the people - and not the other way round.

NEW ZEALAND

ALTAI, SIBERIA

MEGHALAYA

KERALA, INDIA

PORTUGAL

HAWAII

COSTA RICA

MONGOLIA

SAMOA

New Earth Communities include cutting-edge technologies spanning the fundamental aspects of sustainable community development

Energy

Plasma and hydroxy power generators – rotary and propane plat-forms converted to run on distilled water and plasma.
Quantum Field Generators - non-mechanical devices which harness energy directly from the quantum field.
Power Amplifiers - non-mechanical transformer based devices which deliver a ten-fold over unity power output which, when coupled with a power storage device, allows the device to become a self-powering zero-point power generator.

Waste

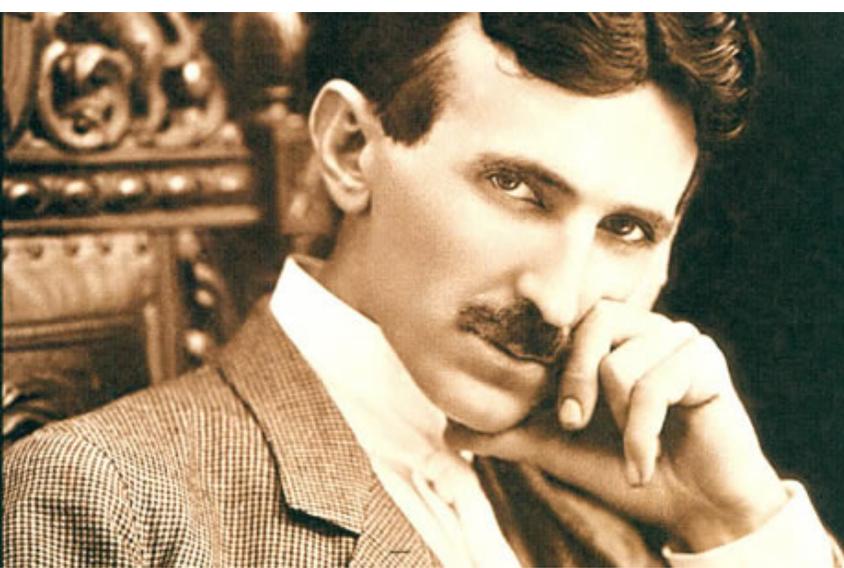

Municipal waste & waste-water treatment system - a clean trash-to-energy-to-food system. MSW, or trash, is converted into a multi-tude of valuable commodities. includes separation for recyclables, bio-digestion, bio-composting, vermiculture, algae-culture, closed looped reduction of inorganics, clean generation of electric power, and capturing and cleaning gases and fuels. The products include three highly-productive, organic, fertile top- soil amendments, clean electricity, a superior fish food and livestock feed supple-ment, blue green algae (Spirulina and Chlorella), and distilled water.

Water

Purification – new earth technologies incorporate a range of purifi-cation technologies that range from state-of-the-art water desalination, sterilization, bacteria and virus elimination systems to naturally occurring effective microorganisms and vermicultures.

Re-structuring - new earth architecture incorporates water collection facilities which employ geometry, vortices and charged crystals to restructure water.

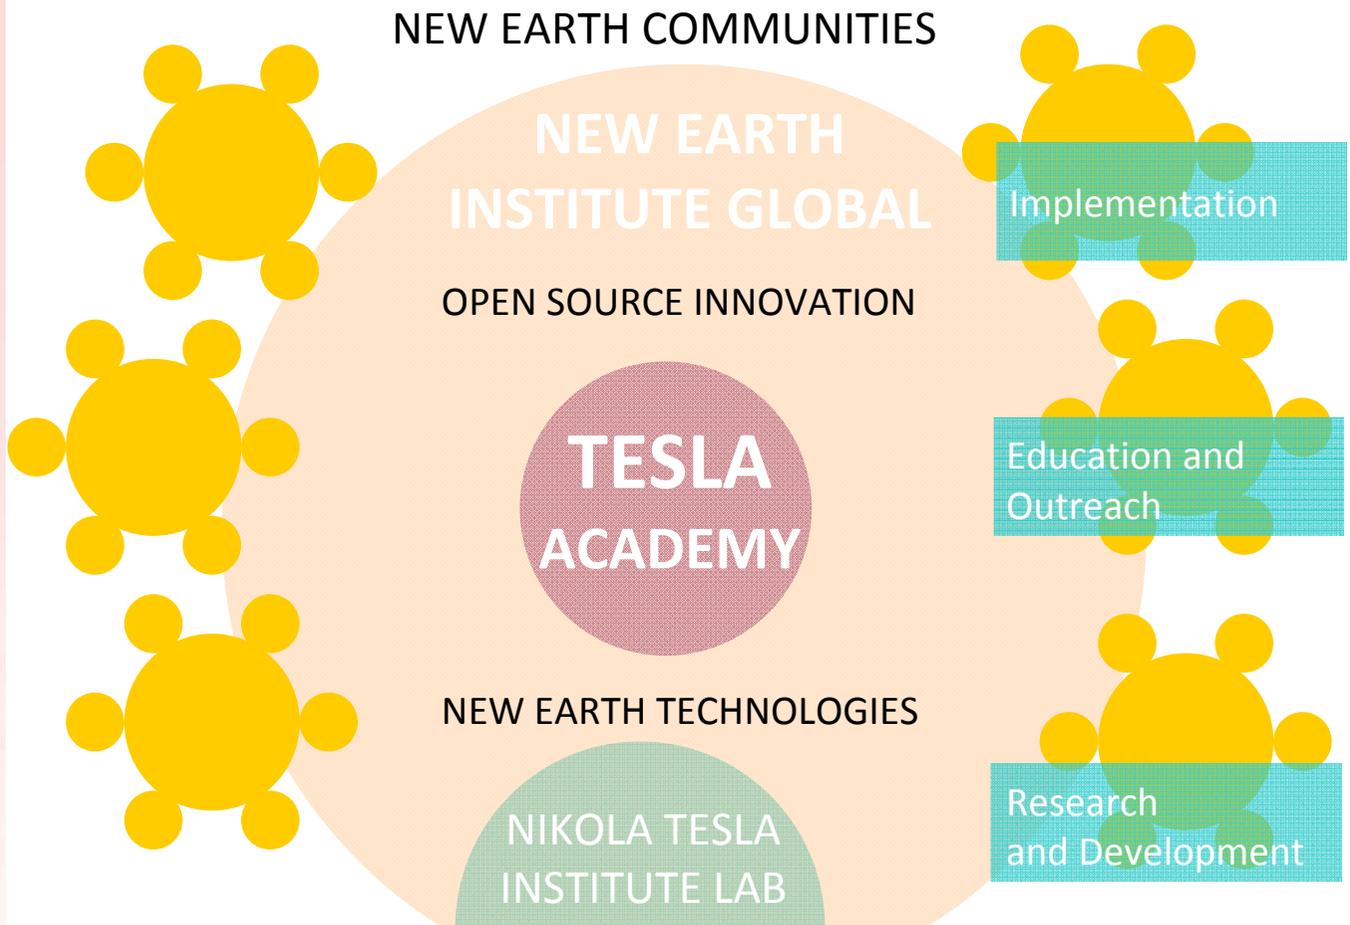

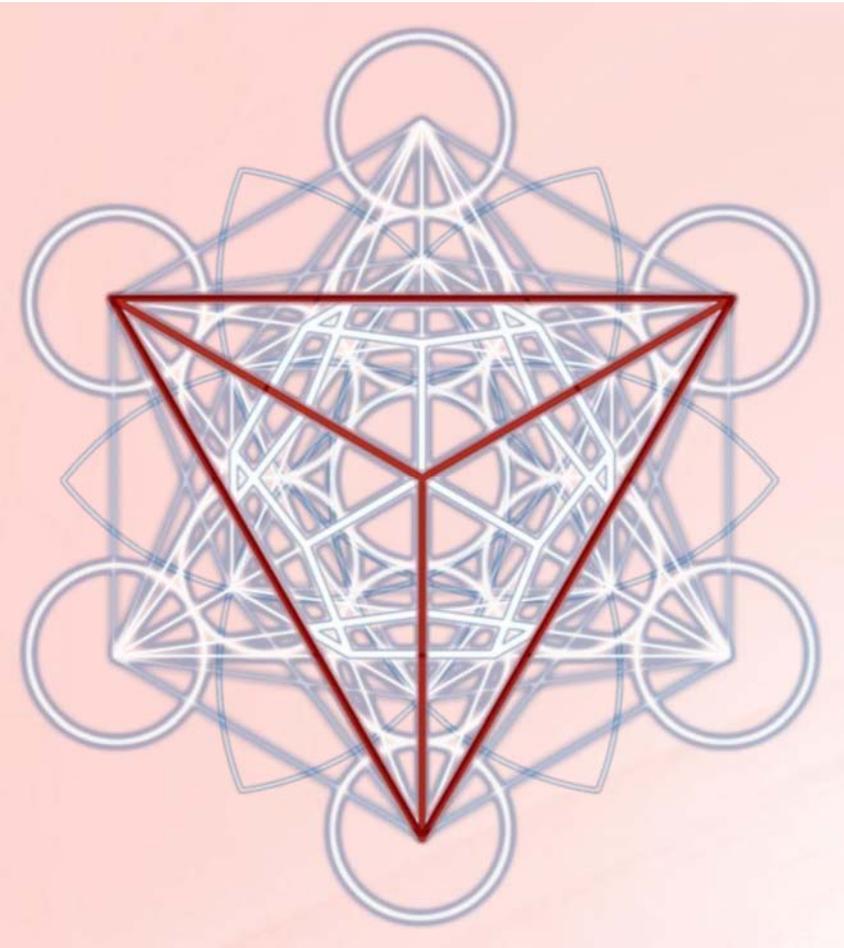

Vortex treatment - the imploder is a specially designed vortex nozzle, which energizes any water back to its natural state. Multiple experiments have shown vortex treated water to bring health and longevity to plant life, animals and humans alike.

knowledge & technology transfer

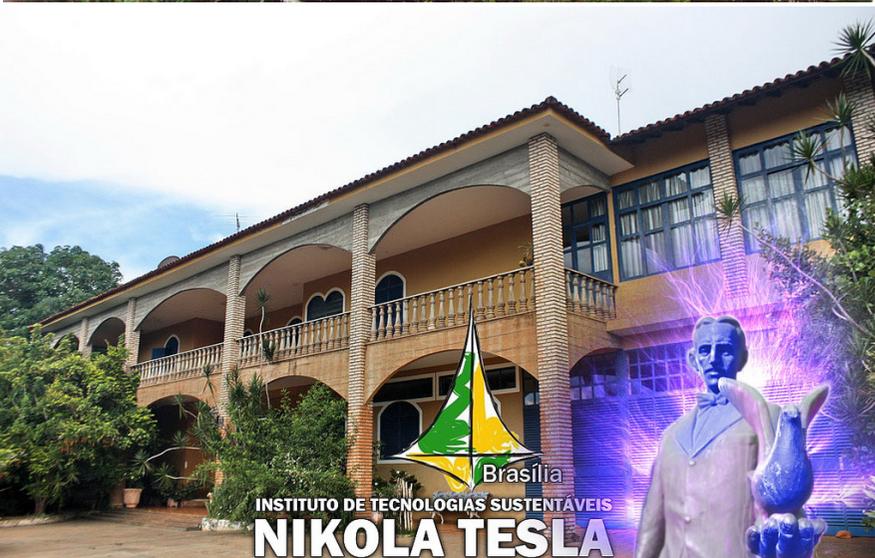

The New Earth Project TESLA ACADEMY

The Tesla Academy brings together researchers, authors, inventors, artists, and entrepreneurs who look to Nikola Tesla as inspiration to their work. **The Tesla Academy** will be offering online/ virtual tutorials and seminars, workshops and videos regarding the work, history and the vision of future of civilization of **NIKOLA TESLA** and other important visionaries.

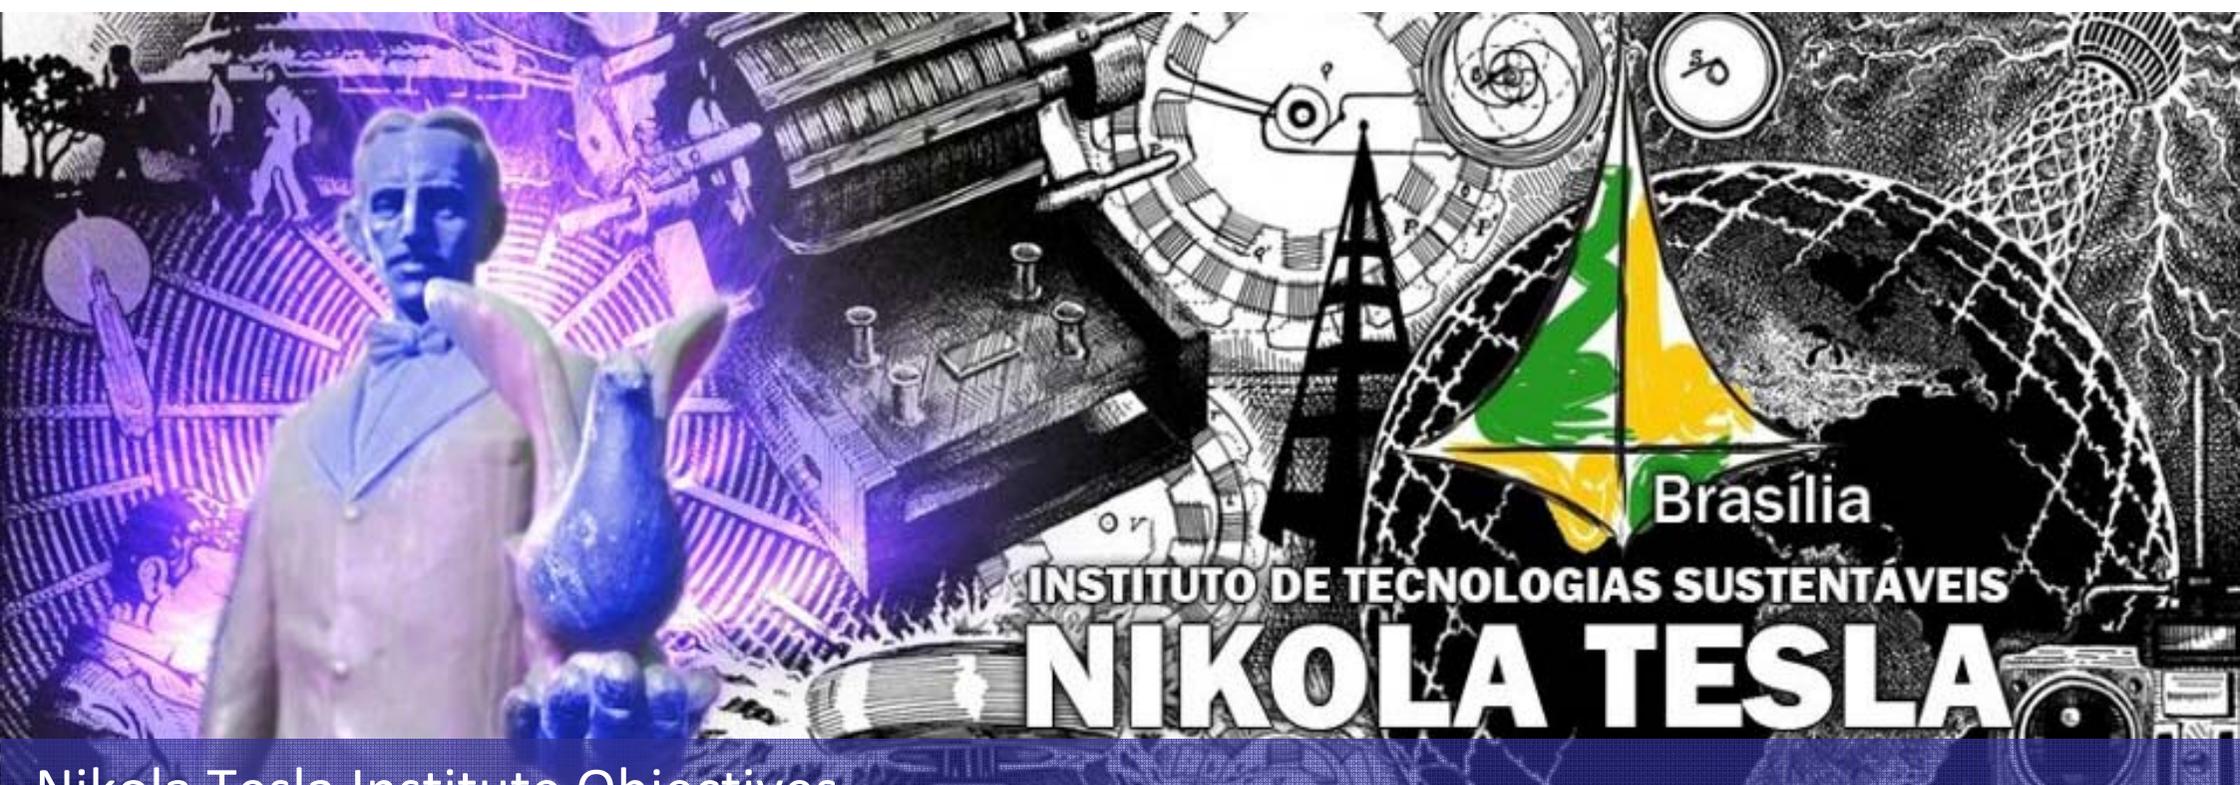

THE NIKOLA TESLA INSTITUTE

The Nikola Tesla Institute, founded in 2012 in **Brasília, Brazil** is a **non-profit scientific organization** with a goal of popularization of new energy research. The private research laboratory is located near the lake Paranoa in the capital of Brazil.

The Nikola Tesla Institute houses working, fully equipped and automated TESLA TECHNOLOGY laboratory!

Nikola Tesla Institute Objectives

- Research and development of **NEW ENERGY TECHNOLOGIES**
 - Development of **NEW ENERGY SOURCES**
- Research and development of **NEW TECHNOLOGIES IN WIRELESS ENERGY TRANSMISSION**
 - Development **TESLA GLOBAL ENERGY** transmitting stations
- Application of **DISTRIBUTED WIRELESS ENERGY** in human habitats
- Research and development of **HUMAN ENERGY TECHNOLOGIES**
 - Research and development of **HUMAN BIO-FIELD** measuring/recording and alteration systems
 - Development and application of **WATER ENERGIZING AND PURIFICATION** systems
- Establishment of a **GLOBAL INNOVATION LABORATORY** and **LIVE/OPEN SOURCE DISTRIBUTION OF TECHNOLOGIES**

Nikola Tesla Institute Laboratory Research Focus

- Earth resonance and Tesla's World System
- Multiple resonant LC circuits and the effects of longitudinal waves interference
- Inertial electrostatic plasma confinement, electromagnetic vortices and electromagnetic wells
- Dielectric barrier discharge, production of ozone and treatment of water

The Nikola Tesla Institute also houses a seminar room with optional live internet demonstrations from the laboratory!

Celso Nicoli and Boris Petrovic – Starting the Tesla Lab (DEC 2012)

Brasília
INSTITUTO DE TECNOLOGIAS SUSTENTÁVEIS
NIKOLA TESLA

Celso Nicoli, a retired colonel of the Brazilian armed forces, graduated from the Military Institute of Engineering (IME) in Telecommunications Engineering with a post-graduation in the same institution in Nuclear Engineering as a M.Sc. in the field of Plasma Physics. Researcher of the Brazilian Military Institute of Research and Development (IPD - Instituto de Pesquisas e Desenvolvimento do Exército) with an experience of 15 years in the area of development of scalar wave antennas in telecommunications applications in general and use in radar systems. Celso is practicing Siddha yoga since 1982.

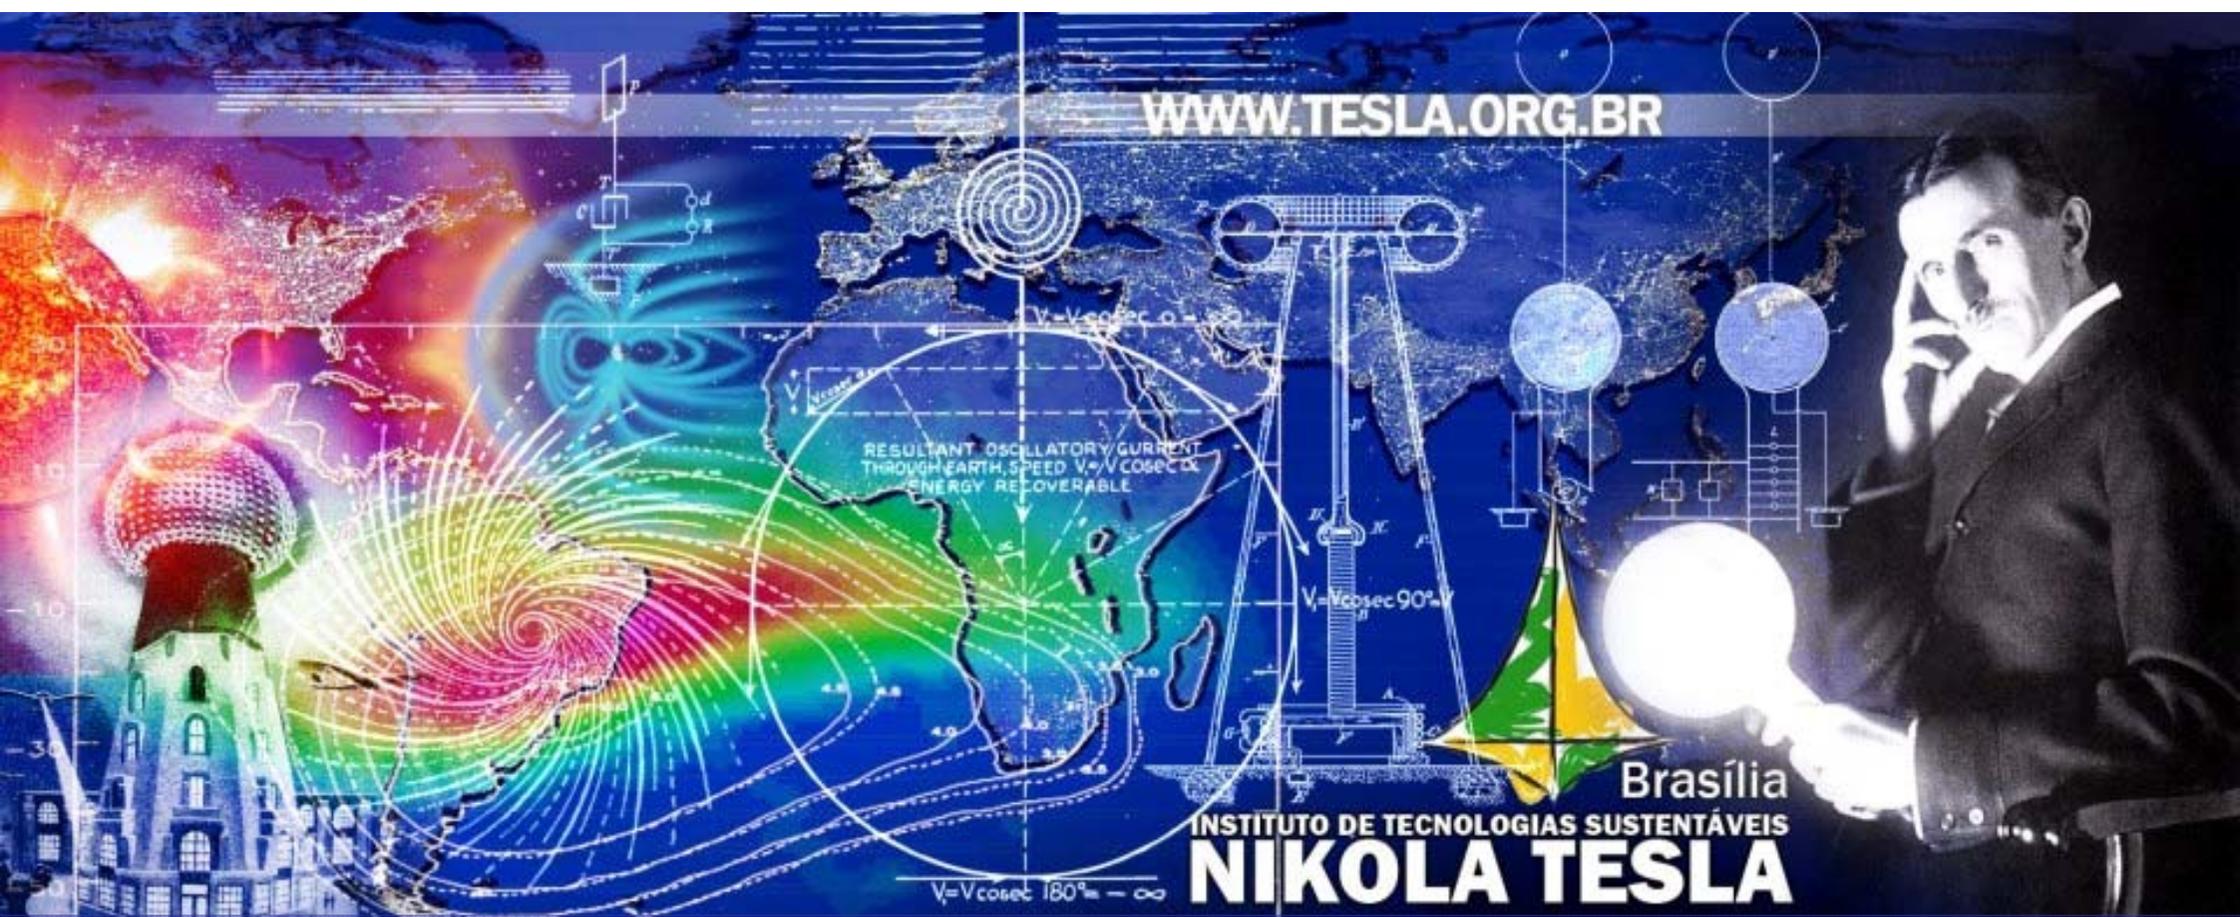

The Tesla Lab Team

Boris Petrovic is a Whole Earth System Scientist and Noospheric Philosopher. engineer of tele automation systems, and a researcher into Tesla's "World system", Earth's magnetosphere, ionosphere, and magnetic reconnection. Boris is an associate of The Serbian "Nikola Tesla" Society in Belgrade, the Tesla Science Foundation in Philadelphia, and founding member of the Noosphere Forum.

Boris worked in a number of embedded tech and automation systems startups as a software engineer and architect. As a founding member of the Google Lunar X Prize Team Synergy Moon, he is involved in private space exploration, focusing on outer-space settlement.

Through cooperation with the International Scientific Research Institute for Cosmic Anthro-Ecology in Novosibirsk and the Foundation of the Law of Time in Oregon he works on the study of cosmic consciousness, access to intensified consciousness and altered states, including non-linear time and telepathy.

Boris' research of Tesla's wireless energy transfer, in his Belgrade laboratory, uncovers the potential energy field of "instantaneous locality" that underlies our reality, and facilitates communication with Earth's cosmic neighborhood.

The Tesla Science Foundation

Nikola Lonchar, President/Founder - Tesla Science Foundation, David Vujic, Chairman - Tesla Science Foundation, Vuk Jeremic, President - UN General Assembly and Dr. Ljubo Vujovic, President - Tesla Memorial Society of New York. Tesla Spirit Award Benefit Reception on January 5, 2013, Hotel New Yorker

Jack Dimich with Nenad Stankovich, owner and publisher of TESLA MAGAZINE, Samuel Mason and Nikola Lonchar, Tesla Science Foundation, receiving Tesla Award in Philadelphia, July 7th. 2013.

The Tesla Science Foundation is a 501 (c)(3) nonprofit organization dedicated to promoting the life, legacy and scientific innovations of Nikola Tesla. Having successfully hosted numerous lectures, seminars, forums - to include the annual Energy Independence Conference and Tesla Memorial Conference - our Foundation is the most active Tesla related organization in the United States today. Through our dedicated efforts and generous support from our contributors, the Tesla Science Foundation network of distinguished scientists, engineers, academics, artists, students and other Tesla enthusiasts worldwide continues to grow. Visionary and scientist Nikola Tesla is included in the **UNESCO Memory of the World** register.

<http://www.teslataalk.tv>

TeslaTalk is hosted by the Tesla Science Foundation, a non-profit organization dedicated to promoting the life, legacy, and scientific innovations of Nikola Tesla.

**TESLA ACADEMY
LIVE**

The *Nikola Tesla Institute* and the *Tesla Science Foundation* will be hosting various online webinar presentations for the online public to become aware and informed about the life, history, philosophy, and inventions of Nikola Tesla as well as related alternative technologies that relate to the vision of Tesla.

In the past, the Tesla Science Foundation has presented various lectures before the public with topics such as:

- **Wireless Technologies**
- **Thinking Beyond Oil** - Energy Options for a Small Planet (Alternatives to oil)
- **Tesla's Tele-automatics and Robotic Visions of the future** (Surgical robotic technologies, etc)
- **Discovery of the Tesla Coil and Transformer**

The term webinar is short for Web-based Seminar, a presentation, lecture, workshop or seminar that is transmitted over the Web to an audience through specific web-based software. Through a webinar, one can give a presentation with a full range of internet technologies at one's disposal that enables delivery of multiple types of media between an audience and presenter with the aid of a technician. Voice over Internet and text-chat is provided to allow for multiple ways to communicate between audience participants. A whiteboard with power point presentation software allows one to give slide presentations, and guided website tours will be possible to show various online content to audience members. Live video will also be presented when needed to show various things. These presentations will usually range from one to two hours with intermission for longer presentations, and might have up to 100 people or more participating.

in the South Atlantic Anomaly**

The Van Allen belt (or belts) are belts of charged particles that surround the earth's atmosphere

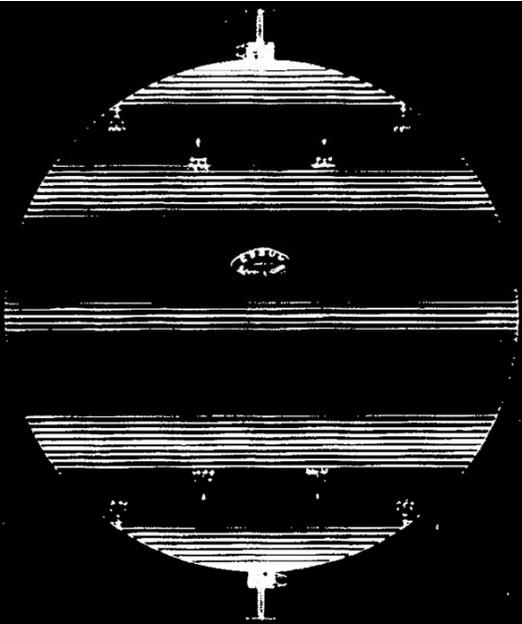

The Earth and Its Atmosphere as a Spherical Capacitor

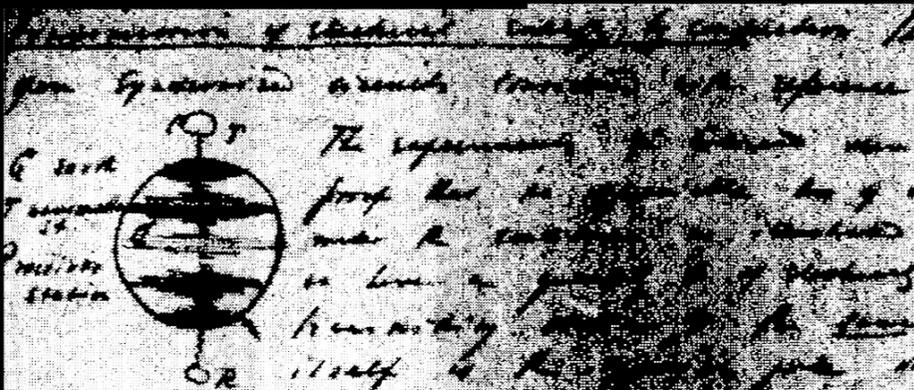

The inner Van Allen belt is closest to the Earth's surface over the south Atlantic ocean where it dips down to 200km

TESLA ACADEMY – NEW EARTH WORLD WIDE FREE ENERGY

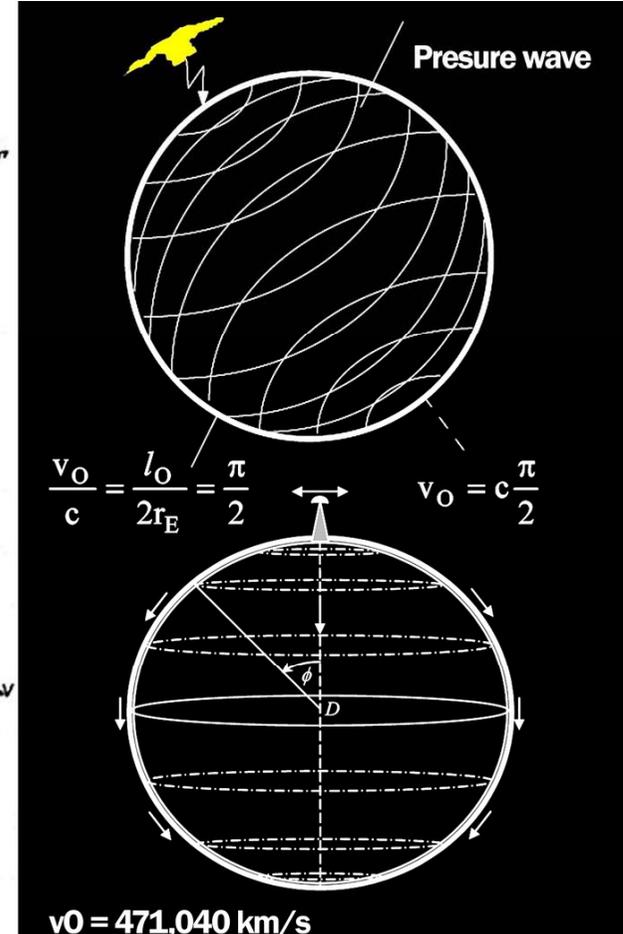

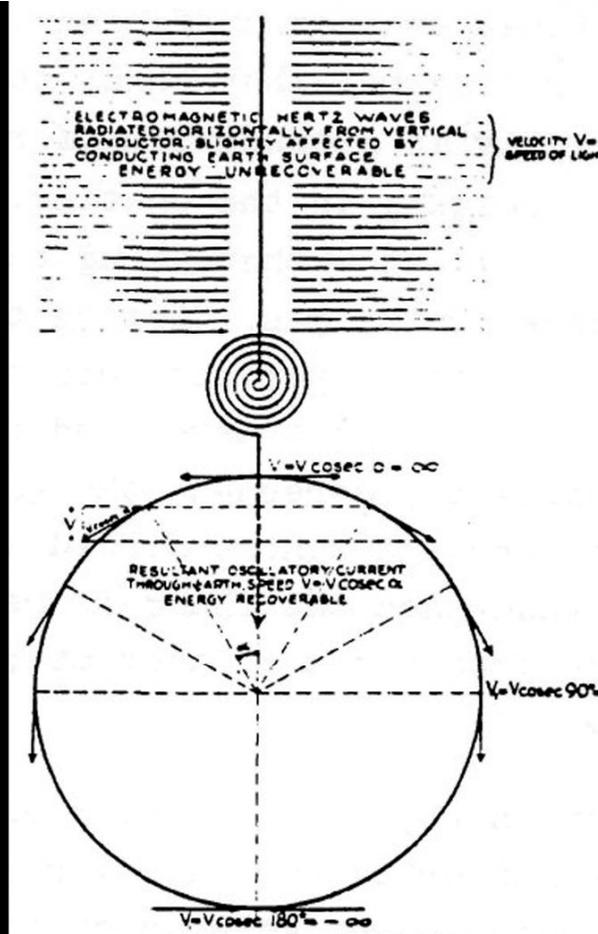

Tesla Wave Propagation

Nikola Tesla's transmitting and receiving antennas and the standing waves along the Earth globe (Unpublished material from the Nikola Tesla Museum, Belgrade) A. Marincic

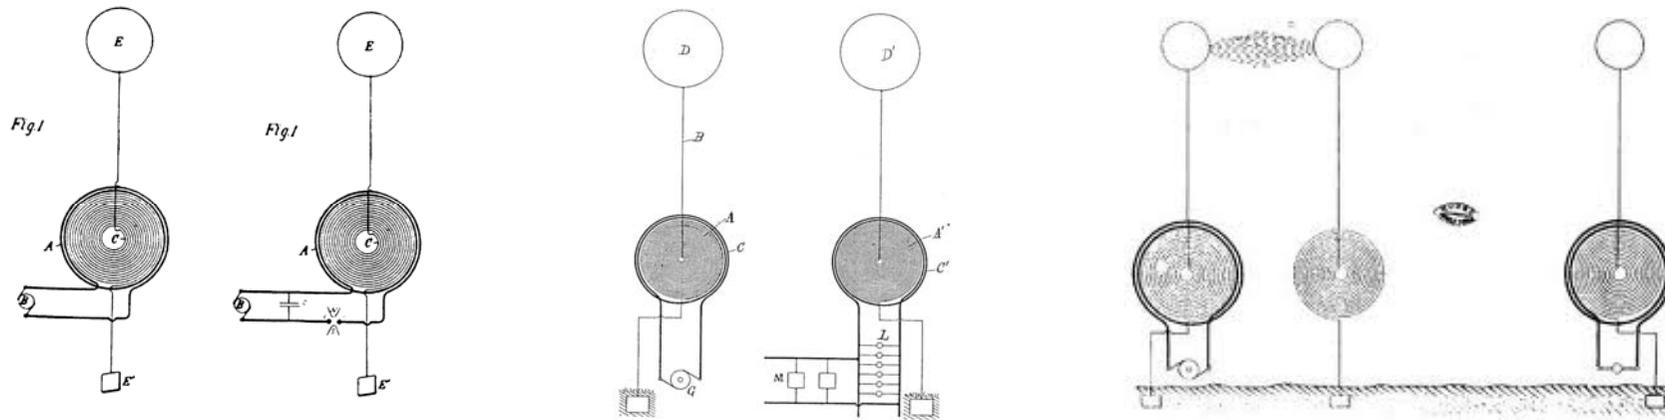

Long island Notes: (June 2, 1901) showing Tesla's model of traqnssmission through the Earth.

Tesla reported the time it takes for a single wave the round trip as being 0.08484 seconds. This equates to a fundamental earth resonance frequency of 11.786892 Hz (ART OF TRANSMITTING ELECTRICAL ENERGY THROUGH THE NATURAL MEDIUMS) Patent 787,412.

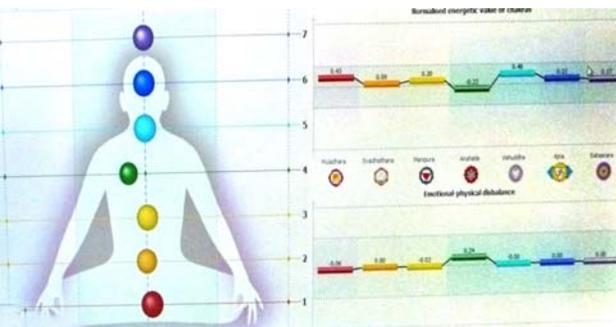

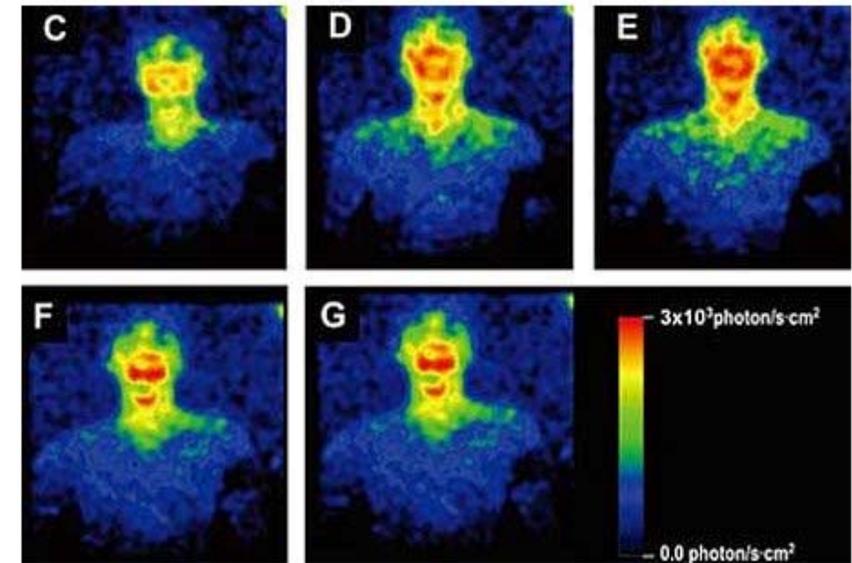

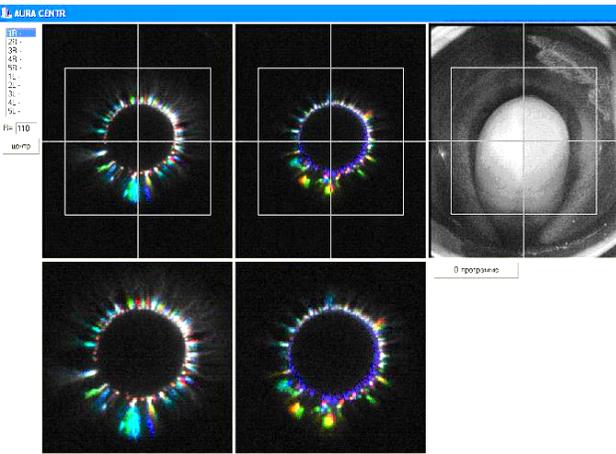

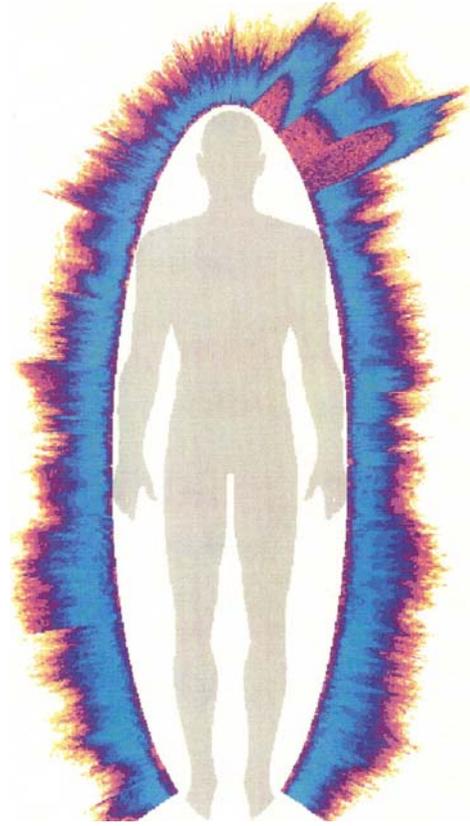

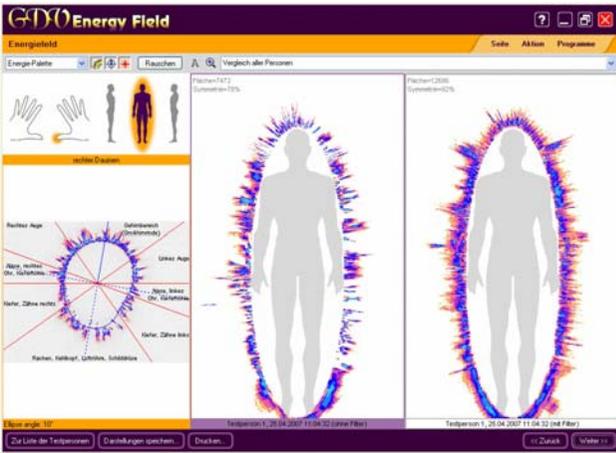

A transmitting circuit is shown connected to earth and to an antenna. The transmitter being in action, two effects are produced: Hertz waves pass thru the air, and a current traverses the earth. The former propagate with the speed of light and their energy is unrecoverable in the circuit. The latter proceeds with the speed varying as the cosecant of the angle which a radius drawn from any point under consideration forms with the axis of symmetry of the waves. At the origin the speed is infinite but gradually diminishes until a quadrant is traversed, when the velocity is that of light. From there on it again increases, becoming infinite at the antipole. Theoretically the energy of this current is recoverable in its entirety, in properly attuned receivers.
